

Every year your Board of Directors, Committees and Canadian Avalanche Association staff work very hard to deliver new and enhanced products and services to all CAA members. When renewing your membership we encourage you to take a few moments to consider the benefits of membership, and to encourage your employers, co-workers and industry partners to support the CAA as a Professional, Affiliate, or Associate Member. Continued membership growth gives us a stronger voice for avalanche safety in Canada and increases our capacity to deliver expanded programs and implement new initiatives.
